Professional Skills: Troubleshooting, Technical Assessment, Technical Research, Verbal and Written Communication, Client Relations, Profit Tracking, Inventory Management

Independent Development Projects

Personal Site | ASP.NET Core 6 MVC Web App

I created a personalized website that demonstrates everything I learned in my time at Centriq. This website also acts as a resume, including my employment history.

StoreFront | ASP.NET Core 6 MVC Web App

I created a secure application that acts as a mock online store. Administrators are authorized to directly edit the data such as: products, categories, etc., in any way they choose as long as it fits within the constraints of logic.

S.A.T Scheduling Administration Tool | ASP.NET Core 6 MVC Web App

Working with a partner, we created a secure web application that serves the purpose of an online class scheduling system. Administrators can manage the data relating to things like students, courses, enrollment data, etc.

Technical Training
